Why SBS Steel?

Welcome to SBS World

Welcome to the World of Steel Building Services, where clients have been finding the construction alternative that best meets their requirements for the last 26 years. Steel Building Services has been providing “Design and Build” solutions for the Industrial, Commercial and Residential construction markets in Qatar since 1978. The company has withstood the test of time because of its quality products, extreme customer service, integrity and competitive pricing of all its projects.

SBS Co. Limited is a Qatari company, provides the following applications:

1. Warehouse and Storage Buildings
2. Air Craft Hangers & Doors
3. Commercial Buildings & Malls
4. Single & Multi Story Car parks
5. Steel Bridges & Road gantries
6. Power plant & Industrial Structure
7. Sports Facilities & Stadium.
8. Maintenance and waste management

SBS believes in the power of the Business Relationship, we look forward to building ours with you starting today. Please Contact us and allow to earn the right to do business with YOU!

Mr. Abdulhafez Noufal

Managing Director

A handwritten signature in black ink, reading "H. Noufal", written over a horizontal line.

Company Information and Strength

1. Our History:

1978

In the beginning Mr. Nofal focused on the provision of erection services that supported large petroleum projects at Dukhan and (mesaieed industrial city in Qatar.

1982

SBS's growth contributed to and is parallel to Qatar's industrial growth and became the first dealer and builder for Kirby pre-engineered buildings in Qatar, and as they say, the rest is history.

1991

SBS joined the Zamil Steel group in a Joint Venture that has become a blue print for developing and sustaining business expansion initiatives.

1996

SBS was recognized at a ceremony in Bahrain for having achieved the Highest Volume of steel buildings sold and erected in the Gulf region. It is this history of excellence that has driven the company yesterday and continues today.

2002

And the spirit of excellence continues on as SBS has added value by developed local fabrication for accessories and all steel solutions required for the industrial market. The most important award to SBS is the satisfaction of its clients and their end users.

2010

The company is continuing to expand relationships with international suppliers and is able to provide the most extensive inventory of metal industry accessories, commodities, and expertise in the maintenance of steel buildings in Qatar.

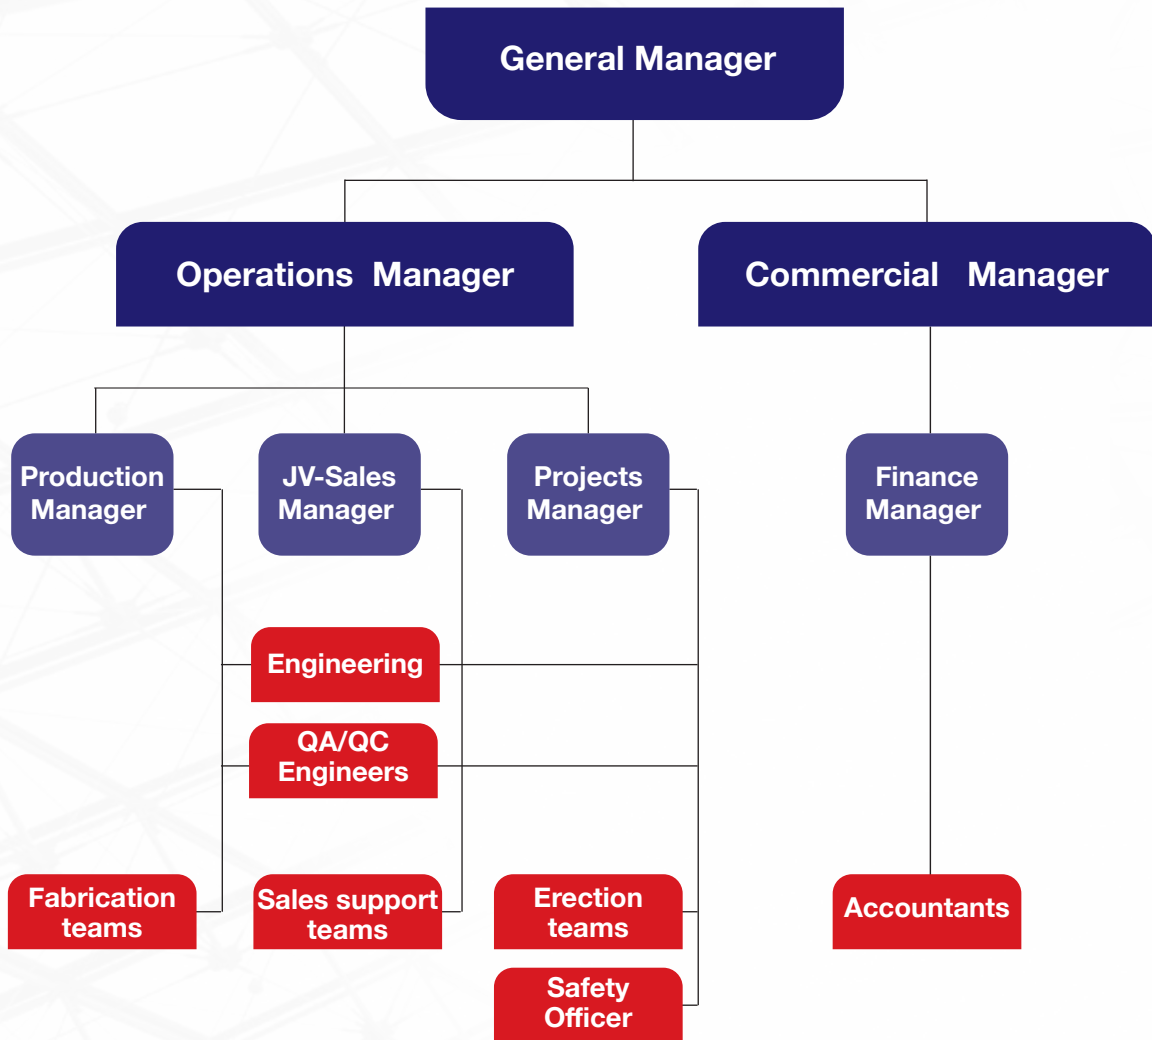

2018

Today SBS is a multi-faceted corporation providing manufacturing, licensed procurement, sales, operations, and marketing for all steel buildings, related products, and services. In essence, the company has evolved as Mr. Nofal had envisioned way back in 1976 to become the modern, trustful and successful corporation it is today. The company's over 200 employee's thank you for choosing SBS!

5. Our Partners:

Specializes in the Design, Fabrication of huge and unique Pre-Engineered Steel Buildings (P.E.B) for factories, warehouses, showrooms, commercial/ trade centers, supermarkets, sport stadiums, exhibition halls, aircraft hangars, etc. PEB Steel is being proud of its wide range product that includes all steel solutions and sheeting. PEB Steel is Big Group which started in South East Asia (Vietnam) in 1994 and. During its operation in the region, PEB Steel has supplied more than 9,500 buildings and was instrumental in setting very high standard of engineering & fabrication.

Since 1988 K&W group of companies offers HIGHEST QUALITY tools, machines, systems and equipment for the various needs of our steel fabricator and trader customers. Today K &W are proud to have thousands of satisfied customers, an international network of overseas offices and various product- and solution ranges covering needs of all kinds of factories working with STEEL & METAL

IBSF

International Building Systems Factory

International Building Systems Factory (IBSF)

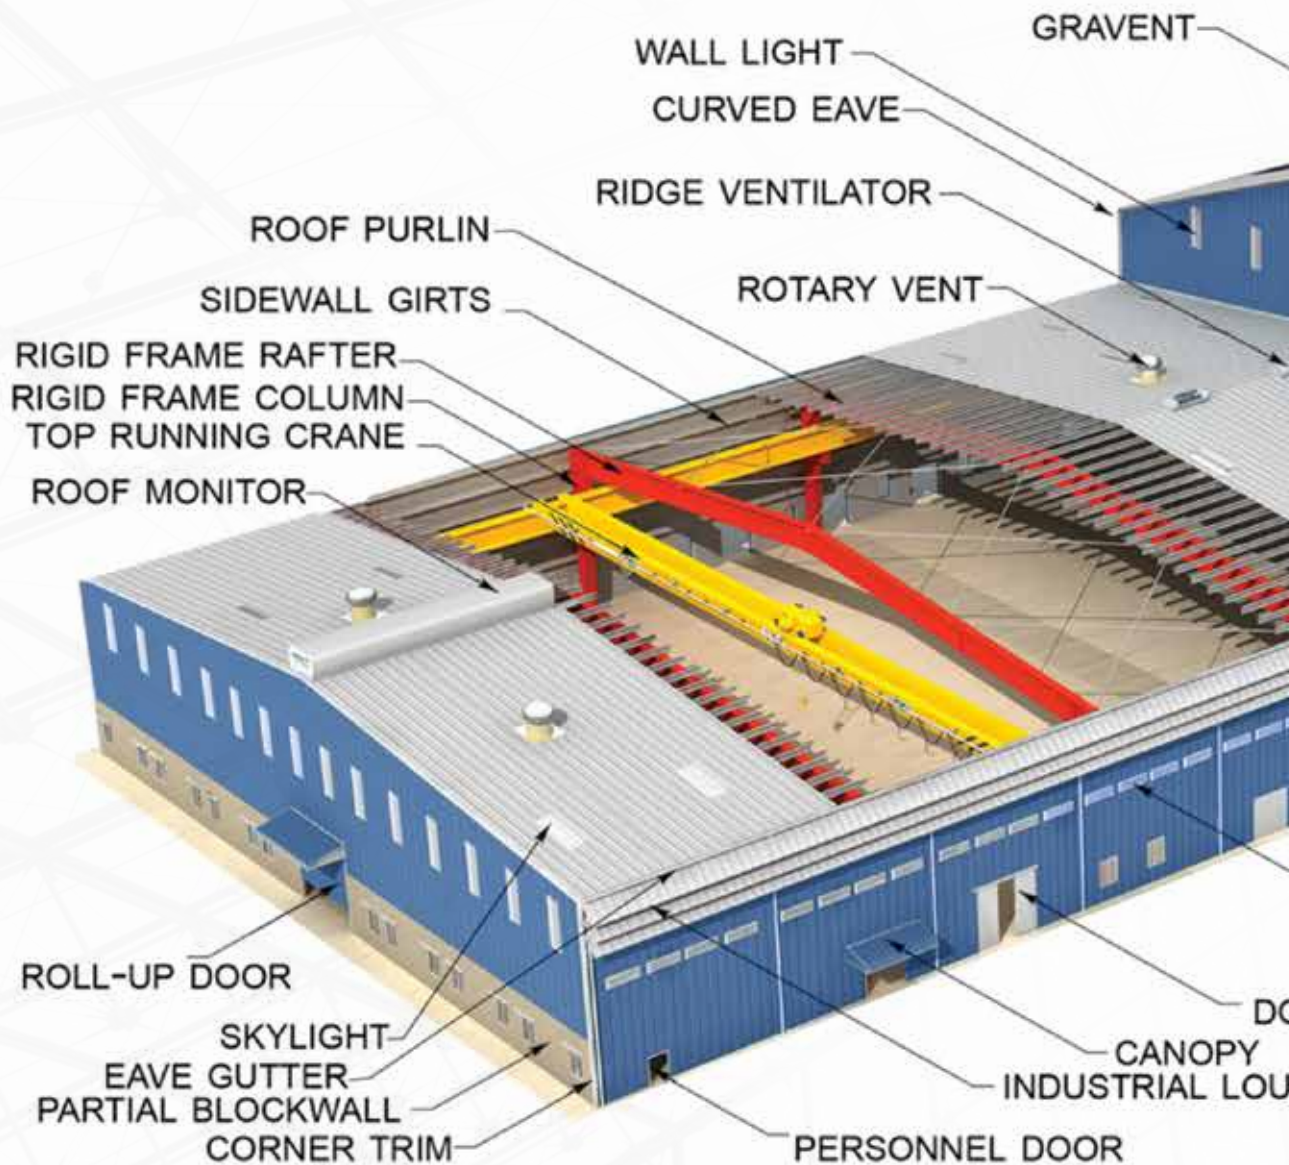

IBSF is one of the largest steel structure and pre-engineered Companies and it's a Subsidiary of AIG company which it's a subsidiary of ASTRA . They started as producer of pre-engineered steel buildings and steel structures in Jordan, Oman and Saudi Arabia to meet business and industrial requirements. IBSF has become a trusted leader in the industry producing over 10,000 structures for GCC and Middle East countries across.

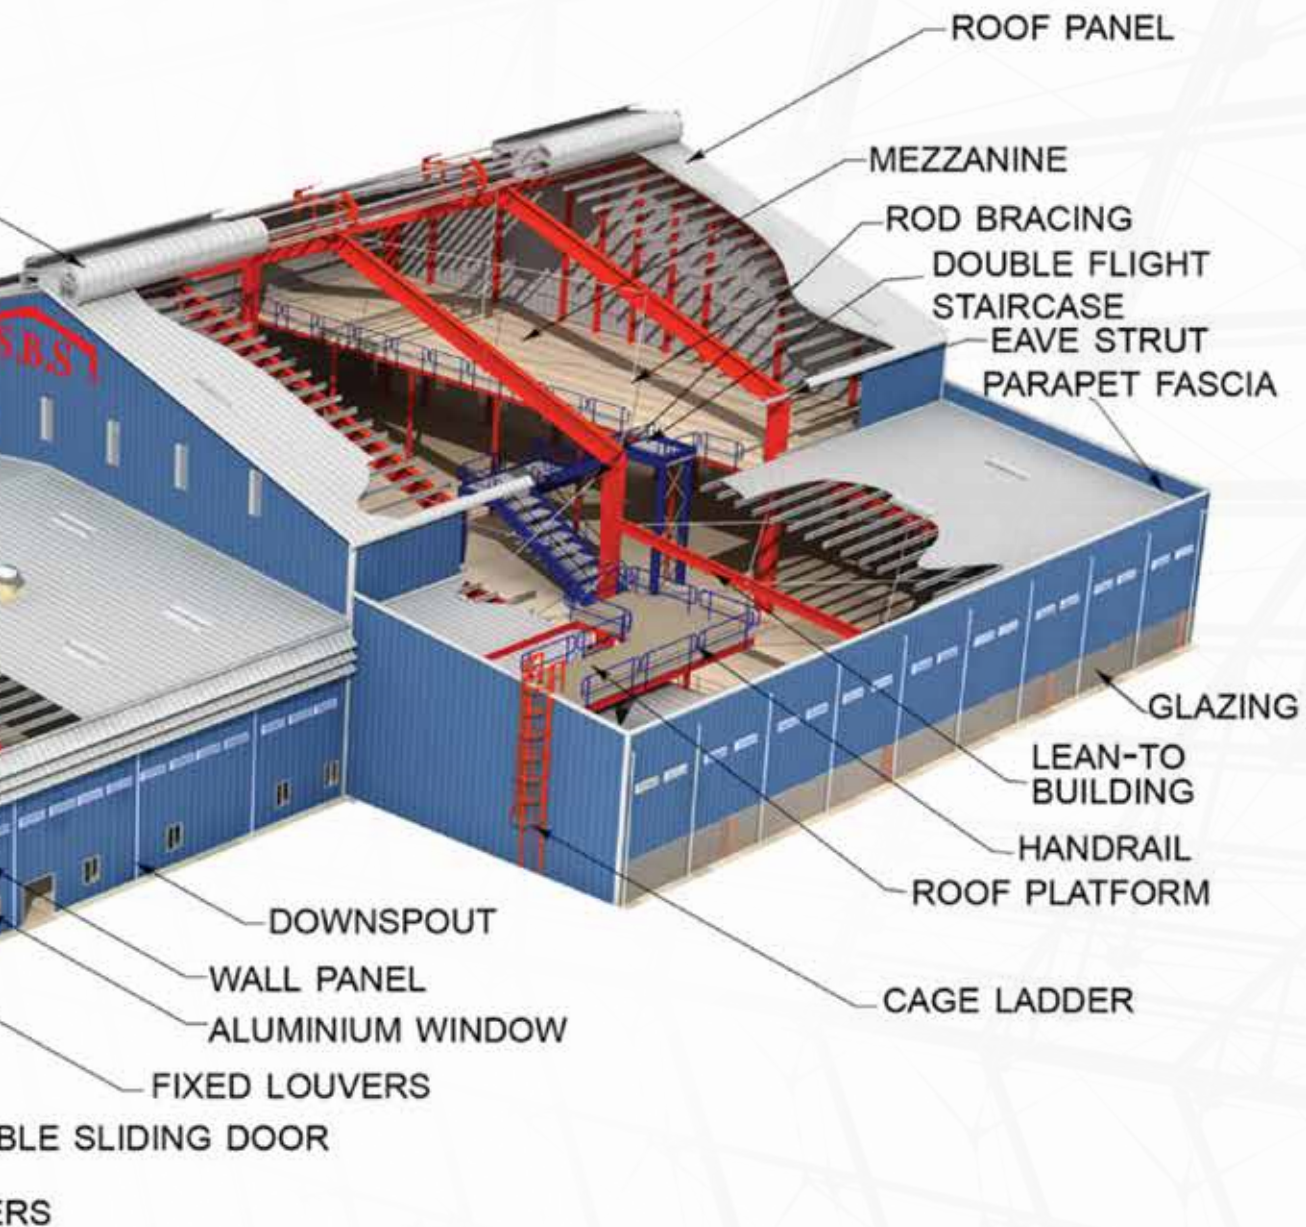

Topps from USA, is a products for maintenance of our buildings and warehouses. Topps has been providing industry-leading roofing solutions to contractors, building owners, and facilities managers for over 30 years. Our roof repair products are second-to-none and they are backed by our dedicated support team of industry experts who are here to help you get the job done right every time.

01 PRE-ENGINEERING BUILDINGS

Pre-engineering System:

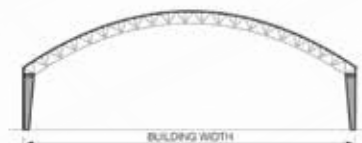

SBS offers services for the design, fabrication and installation of Pre-engineered building with different usage in all types of projects. We process all materials and workers needed to complete the building envelope and put at your disposal our technical and engineering department, to meet your expectations. Our Usage of PEB can cover: warehouse, storages, shopping mall and hangers.

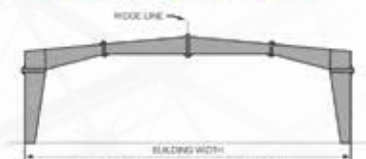

Typical Cross Section

Curved PEB Roof (CP)

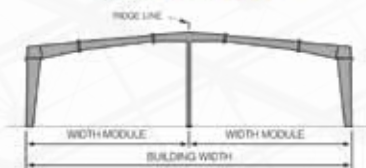

Open - Web Curved Rafter (OW)

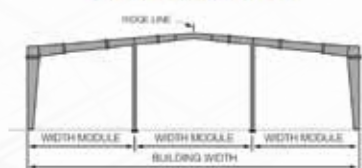

Clear Span (CS)

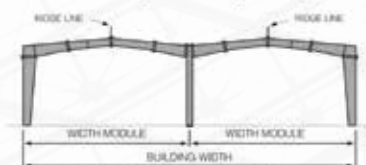

Single Slope (SS)

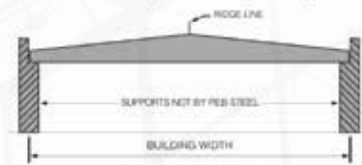

Multi-Span "1" (MS-1)

Multi-Span "2" (MS-2)

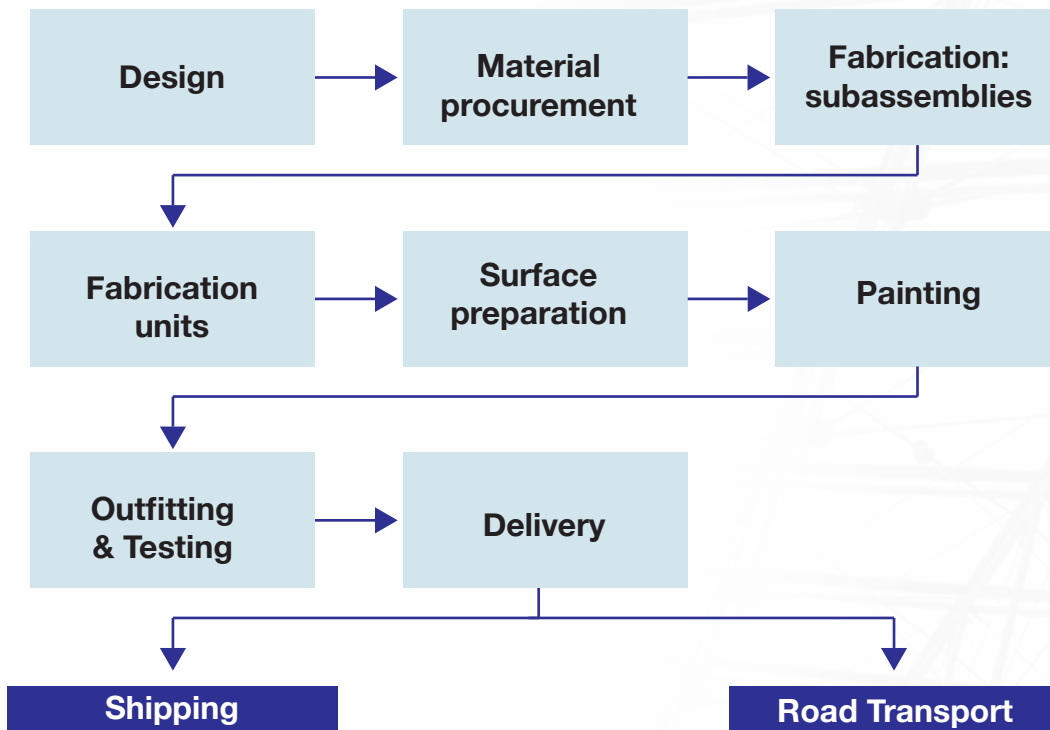

Multi-Gable (MG)

Roof System (RS)

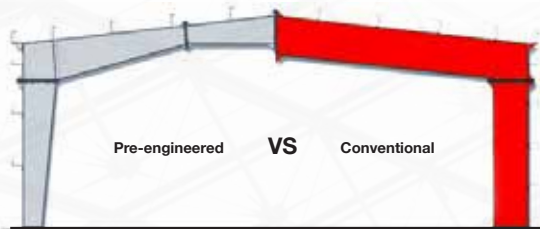

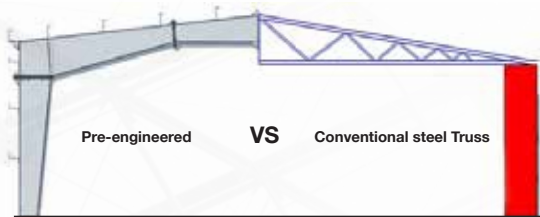

Pre-engineering Supply:

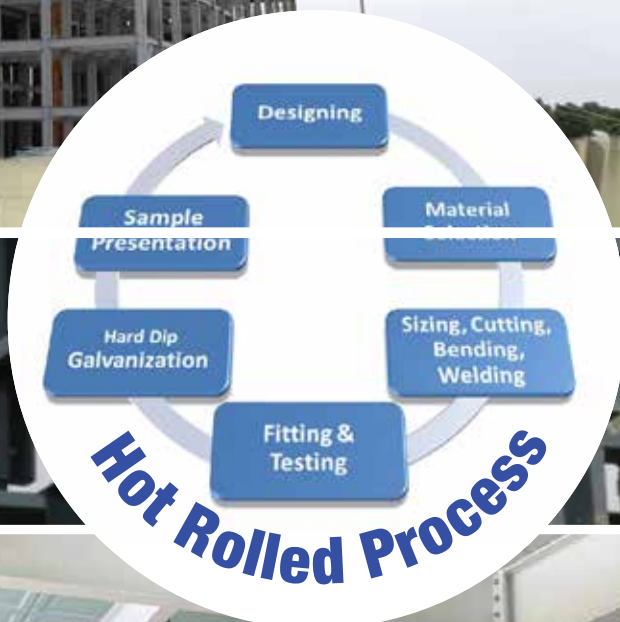

SBS offers services for the design, fabrication and installation of hangers and different steel building in all types of projects. We process all materials and workers needed to complete the building envelope. We can also put at your disposal our technical and engineering department, to meet your expectations.

02 HOT ROLLED STRUCTURE

SBS's Workshop offers regular and local fabrication for structural steel for heavy steel industry and other metal works. It is a value added process that involves the creation of machines, parts, and structures from various raw materials. Our fabrication jobs usually start with shop drawings including precise measurements, then move to the fabrication stage and finally to the installation of the final project. Typical projects can cover: pipe racks, RO refineries, power plant, tanks, and accessories.

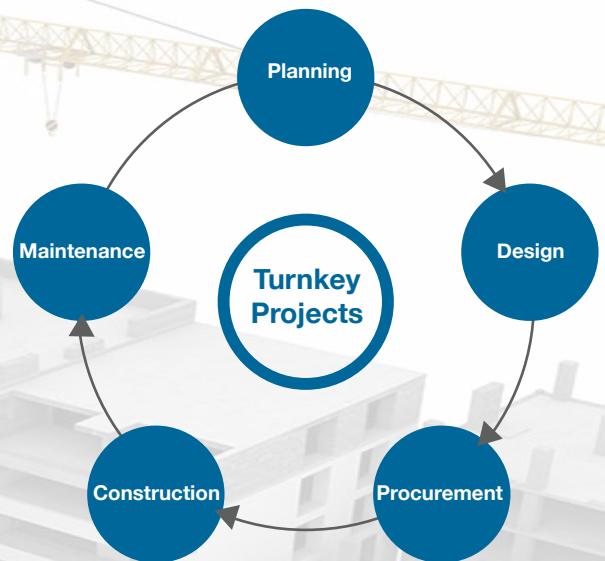

03 MAIN CONTRACTOR (Turn Key)

SBS has obtained several mandates to build industrial, commercial and recreational facilities as Turnkey Projects.

Our turn-key solutions include our wide network of suppliers of construction products, helping us to provide our clients with high quality materials.

We also deal with well-established subcontractors to carry out site work such as mechanical and electrical work. SBS teams continually remains on top of all the work being done and sees to the quality control until the end of the construction.

05 MEZZANINE SYSTEMS

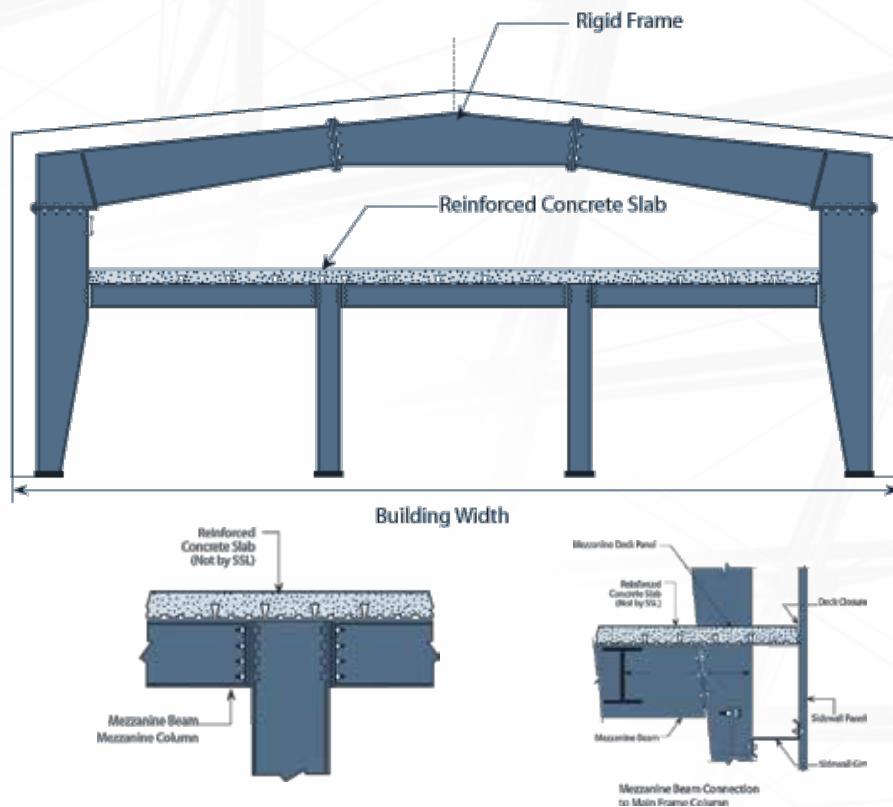

PebDek® 76

PebDek® 55

Mezzanine+ systems is additional steel floors replaced by RC slabs. Our Standard SBS mezzanine framing system consists of steel deck supported by joints framed into main mezzanine beams. The economy of a mezzanine system is affected by the applied loads and mezzanine column Locations. Multi-level mezzanine has been designed to serve all interior equipment platforms, catwalks and additional floors.

06 SPACE FRAME SYSTEM

The Space Frame systems have opened up a new dimension in architectural design. SBS has diversified in the field of Space Frames System as economical solution to cover large spans in most complex construction requiring aesthetically architectural cosmetic beauty.

SBS offers Consultancy design, project management, experienced installation engineers and services to meet your space frame needs, where the project is located in Qatar, our team is always there to see it to completion.

07 ERECTION & INSULATION

Erection of structural steel work consists of the assembly of steel components into a frame on site, and it can be a significant project cost. The processes involve lifting and placing components into position, then connecting them together generally using bolting but sometimes using site welding.

The cost of erection is determined by the speed of erection which is dependent to a large extent on the connection design, typically it can be 8 to 13% of the total project budget. Its estimation requires careful consideration of all aspects of erection scheme.

08 MAINTENANCE OF INDUSTRIAL BUILDINGS

White Cream Color

SRI: 84

Solar Reflectance: 0.69

Thermal Emittance: 0.86

Roof & Wall

In moderate to hot climates, sandy weather and wrong usage from the end users, SBS can offers solutions for maintenance of roofing and other sheeting's parts, we can reduce the cost of replacing by maintaining. Our maintenance procedure starts from inspection, cleaning, repairing and applying the right friendly and environmentally products. Greater comfort while using less energy helps to reduce cost and is friendlier to the environment.

Reflected Heat of Roof

09 SUPPLY OF INDUSTRIAL PRODUCTS

SBS' Plus advantages that providing the accessories and factories furniture like (ladders, racking, and overhead cranes, Louvers, doors, fences, bolts, insulations..)

1. Building Accessories:

Ridge ventilator

Staircase

Sliding door

Roll-up Door

Liner & Sky Light

Fixed Louver

Steel Grating

Racking Systems

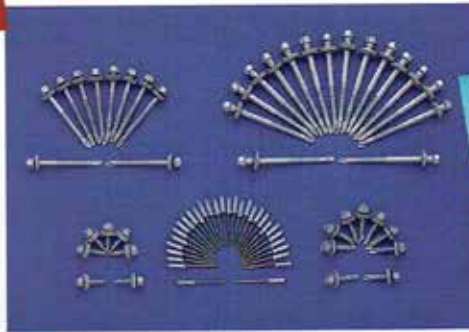

Sundry Items

ANCHOR BOLTS

HILLSIDE WASHERS

FASTENERS

(Self drilling screws & Pop rivets)

BOLTS & NUTS

SEALANTS & CLOSURES

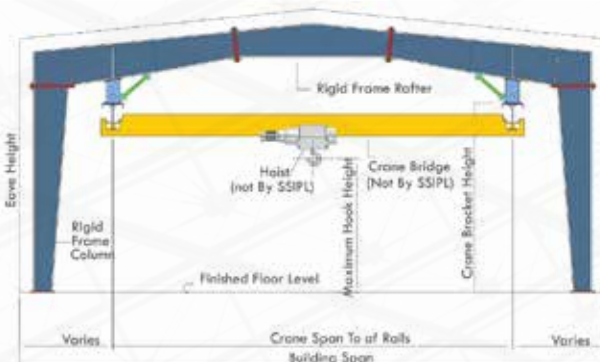

Canopy

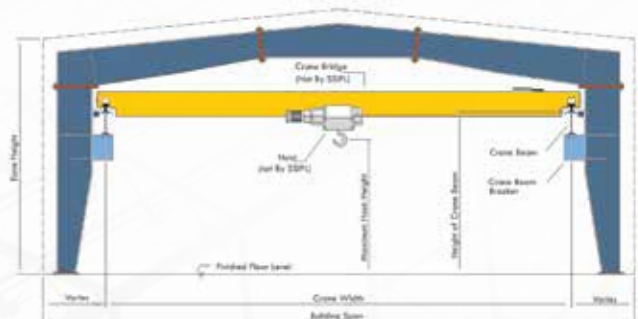

TOPPS products

2. Overhead Crane:

Underhung crane

Top running crane

3. Equipments & Tools:

Saw & Drill machine

CNC machine

Plate Rolling machine

Blasting machine

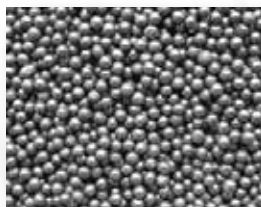

Profile Bending Machine

Pipe Plasma Cutting Machine

Tools

Steel Shot

Steel Shot

10 LATHING & TURNERY

Lathe machine 4M

Lathe machine 2M

Lathe machine 1M

Planing machine

Milling machine

Drilling

Press machine

Lathe is power driven machine, which is used for many operation such as reduction in length dia and enables threading, surface finishing operations. Etc, which are the basic operations to be carried out for the component. SBS offers drilling, milling, bending, cutting, and threading for any type metal required.

Lathing Workshop

11 CRANES & EQUIPMENT

a. Mobile Cranes:

Our hydraulic cranes are Certified & safety its ranges in capacity from 10 ton to 200 ton. The Cranes type ranges from Truck Mount and Rough Terrain Cranes to handle our erection work. The Heavy Equipment Department is led by a qualified and experienced mechanic team who coordinates all servicing and maintenance using a sophisticated tracking system which ensures our vehicles and plant are fit-for-work at all times.

LETTER OF AUTHORIZATION

Date: Jan 10th, 2017

TO WHOM IT MAY CONCERN:

Via, **PEB STEEL BUILDINGS COMPANY LTD.**, a Company established and duly existing under the laws of Vietnam, with main office located at Dong Xuyen IP, Rach Dua Ward, Vung Tau City, Ba Ria Vung Tau Province, Vietnam.

Hereby duly appoint and authorize **STEEL BUILDINGS SERVICES CO.**, a company established and duly existing under the laws of Qatar, with main office located at Po Box 8152, Qatar represented by Mr. Yousef Nefel, Director (the "Agent"), as our authorized sales agent for the sales promotion of **Steel Buildings, Steel Structures** manufactured by PEB Company ("Products") in the territory of Qatar until the end of December 2017 (for the period of **twelve (12) months**) from this date written here in after.

Please acknowledge and understand that:

- a. We authorized the Agent to provide us with the counsel, guidance, liaison assistance, facilities and information as shall be reasonably necessary and required for the promotion of the sale of Products;
- b. The Agent agreed to do their best efforts to promote and further the sale of the Products;
- c. Agent's authority under this instrument is to assist us in the promoting of the sales of the Products and we shall not authorize the Agent to enter any commitment of any kind on behalf of us and shall not make any contractual offers on behalf of us unless the Agent obtains prior written instructions from us concerning the terms of such commitment and/or offer;
- d. The Agent will assume and discharge for their own account all costs, expenses and charges necessary or incidental to its marketing functions and operations hereunder, and will indemnify and save us harmless from and against all such costs, expenses and charges, and all claims, disputes, actions, judgments and liabilities of every kind which are made, contracted, suffered or incurred by the Agent; and
- e. The official Agent Agreement regulating rights and obligations of the Agent and us will be separately made and entered between the Agent and us after verifying the marketability of the Products.

IN WITNESS, WHEREOF, we have duly caused this instrument to be executed by our duly authorized representatives as of the date and year first above written.
